Answer: The containers should be placed in the same location they were delivered by Eagle Waste no later than **6:00 am** on your scheduled collection day. The container should be placed at least four feet away from parked cars, trees, mailboxes etc. A video showing this collection procedure and explaining the cart placement can be found on our web-site at www.eaglewasteandrecycling.com in the Video Center tab. Because of the fully automated system, all trash and recyclables must be placed within the containers. Trash and recyclables not placed within the containers will not be picked up.
